

## **STATEMENT OF PURPOSE**

### **RS18218**

The Board of Liquefied Petroleum Gas is amending section 54-5308, Idaho Code to include a fee cap of \$500 for applications, renewals, and original licenses for facility licensure. The actual fee will be set in rule. The current law does not specifically set a fee cap for facility licensure.

### **FISCAL NOTE**

There is no impact on the General Fund. The fee would need to be set in rule in order to impact the Bureau's dedicated fund.
